ABSTRACT

This report provides information on degree and certificate programs offered and student program completions for fiscal year 2000-2001 in North Dakota's public and private postsecondary educational institutions. Institutions programs are coded in accordance with the Classification of Instructional Programs (CIP) code system of the National Center for Education Statistics. Programs are organized by level of offering: certificate, diploma, associate, bachelor, and graduate. The CIP codes are listed, and all programs offered in the state are identified by CIP code with an entry for institutions offering the program and the program level. Following this information, a profile is presented of 1- and 2-year program completions for each institution. A profile of program offerings is then provided for North Dakota's four-year public and private institutions. A final section contains information about program completers by field of study. (SLD)

GENERAL

INFORMATION

INTRODUCTION

This report provides information on degree and certificate programs offered and student program completions for fiscal year 2000-2001 in North Dakota's public and private postsecondary educational institutions.

Institutional programs are coded in accordance with the Classification of Instructional Programs (CIP Code) system provided by the National Center for Education Statistics branch of the United States Department of Education. To assist readers, programs have been organized by level of offering: certificate, diploma, associate, bachelor, and graduate. Information included was provided by registrars at each institution.

Individuals desiring additional program information about vocational-technical programs should check the directory published by the State Board for Vocational Education. Students desiring information about institutional tuition, fees, room and board rates, and financial aid should contact the institution's admissions office directly. Information on North Dakota University System campuses is available through the System web site: http://www.ndus.nodak.edu

DEFINITIONS

Program Completed

A completed program is one in which the individual has met all of the requirements to obtain a degree or certificate (16 or more credit hours at the undergraduate level or 9 or more credit hours at the graduate level) in that field of study. This number may vary slightly from other publications that report degrees granted since one person may complete two programs yet receive only one degree. This publication reports all programs completed. Information on certificates of completion (less than 16 credit hours at the undergraduate level or 9 hours at the graduate level, or non-credit activities) is not included in this report.

Education Codes

CIP Codes with a "13" prefix indicate a program in education. Most information on education programs can be found in the "13" code, although on some campuses, teacher education majors may earn their degree in a specific discipline, not education.

In the *Programs Offered by CIP Code* section, an "X" indicates that program is offered. In the *Student Program Completions* sections, a "0" indicates the program is offered, but had no graduates that year.
